

# Categories 1.1 & 1.2 - GUNDAM MODELS!!!

In response to the growing popularity and availability of GUNDAM fighting suit models, [your club name here] has added new Categories to show off these unique models.

x

## Category 1.1 - Beginner & Basic Build Models

### JUDGING BASED ON CONSTRUCTION & FINISH

No glue snots, or nubs, or sanding marks, no improper fit of parts,  
no poor or inconsistent seam treatment, and  
no unintentional surface imperfections, or similar issues.

Looking for a uniform non-paint finish without unintentional flaws.  
Stickers or decals are allowed, but must be applied well.

## Category 1.2 - Advanced & Modified Models

### JUDGING ON CONSTRUCTION, FINISH & PRESENTATION

None of the construction issues mentioned above should be visible.

Painted finishes can't be uneven or messy, can't show brush strokes, must address all panel lines, and be applied consistently over the model.

Weathering, damage, or advanced finish techniques,  
plus any modifications or enhancements,  
must be skillfully and consistently applied.

The pose and presentation should enhance the basic model.

Judging will use the Open System methodology.

Attention will focus on Basic Modeling Skills, as well as any additional components (e.g. finish and/or detailing, add-on or scratchbuilt parts, basing, etc.) attempted by the modeler.
